

WOMEN'S BREAKTHROUGH RETREAT

DEEP SHADOW-WORK & CORE-LEVEL HEALING

A Residential Group in Maui, January 14-20, 2019

with Robert Augustus Masters, PhD

(assisted by Rochelle Jaffe, MS, CHt)

Come to Maui next Winter for some deep-diving shadow-work! Be part of a group of 10 women staying at Banyan Tree Retreat — a beautifully serene sanctuary — who'll combine uncommonly deep healing work with wonderful fresh food, swimming, and beach walks, sunning and resting in the lush green surroundings.

If you are ready for deeply effective work to cut through whatever is obstructing your capacity to function optimally in every area of your life, this group is for you!

All kinds of issues and concerns — ranging from the deepest trauma to the

seemingly trivial — will be addressed through a dynamic, creative mix of psychospiritual guidance, bodywork, emotional opening, dreamwork, and group practices. This will be conducted in the spirit of becoming more intimate with *all* that you are — high and low, dark and light, superficial and deep.

There'll be plenty of rawness, plenty of revelation and deep opening and breakthrough, plus a sense of safety that's solid enough to provide a powerful container (both crucible and sanctuary) for whatever work needs to be done.

The group will also feature cutting-edge shadow-work. There's a part of us — all of us — that contains what we don't know or don't like or deny about ourselves. And what is this part? *Our shadow*. Trying to get away from our shadow keeps it in the dark — but turning toward and becoming intimate with it (and its roots) is a profoundly beneficial, inherently empowering process.

Becoming intimate with our shadow frees us from being controlled by it. *If we are to live fully, we must bring our shadow elements out of the dark and integrate them with the rest of our being*. Doing so will be at the very heart of this group.

I'm delighted to have Rochelle assisting me. She's trained extensively with me, is an excellent therapist and is the Director of the Ashland School of Hypnotherapy. Her presence and capacity for deep insight will make our group all the better.

The group is limited to 10 women only.

Robert Augustus Masters, PhD, is a relationship expert, psychospiritual therapist and trainer, with a doctorate in psychology. His books include *Transformation Through Intimacy*, *Spiritual Bypassing*, *Emotional Intimacy*, and *To Be a Man*. His work blends the psychological, emotional, physical, and social with the spiritual, emphasizing deep embodiment and the development of relational maturity. At essence his way of working is about becoming more intimate with *all* that we are — high and low, dark and light — in the service of the deepest possible healing, awakening, and integration. For more, visit <http://robertmasters.com>.

Robert is a true master of integrated consciousness. I think of him as a Ninja Shadow Tracker who guides us effectively into our territories of resistance, pain and avoidance so we can navigate our way with honesty, full embrace and ultimately with love for our Whole Self. Robert brilliantly facilitates safe space with clear boundaries, profundity, respect, compassion and non-judgmental awareness for each person's process. This is quintessential work for the times we live in and paramount for real transformation to take root and blossom. Robert's work is foundational for becoming the most authentic human being we can be and is at the heart of the spiritual quest. (Sianna Sherman)

Robert provides an astounding container. With all of his skill and laser-like insight drawn from a lifetime of experience, I moved through a sad, dark "settling for less"

place and found diamonds in that mud. I know where I am going now. Still into the Mystery but with greater ease and the knowledge that all of who I am is welcome, wanted and possible. (Zoe Alowan)
